PROFILE

“Motivated and reliable Frontend Developer with 8 months of experience at Algorydhem Agency, skilled in HTML5, CSS3, and Bootstrap 5. Specialized in building responsive, user-friendly websites with a focus on clean design and client satisfaction. Strong in communication, teamwork, and project handling. Eager to contribute to a dynamic team and grow through real-world challenges.”

WORK EXPERIENCE

Frontend Developer Algorydhem Agency | Internship | January-August (2025)

- Built responsive, mobile-friendly websites using HTML5, CSS3, and Bootstrap 5, ensuring clean design and cross-browser compatibility.
- Collaborated with UI/UX designers to turn Figma or design mockups into fully functional web pages with pixel-perfect precision.
- Assisted in improving website performance and page load speed through code optimization and best practices.
- Worked closely with developers and project managers to deliver client-focused solutions on time and according to specifications.

EDUCATION

Bachelor of Science in Computer Science (BSCS) Punjab University of Pakistan (2023- Present)

- Currently pursuing BSCS with focus on web development, programming, and software engineering.
- Gained foundational knowledge in data structures, OOP, and frontend technologies.
- Developed academic projects using HTML, CSS, and Bootstrap.
- Actively improving practical skills through internships and freelance work.

Intermediate in Computer Science (ICS)

Board of Intermediate & Secondary Education | Completed: 2023

- Studied key subjects like Programming Fundamentals and Information Technology.
- Built logical thinking and basic programming skills through hands-on assignments.
